

**Strength, Speed, & Conditioning Systems
Designed For High School Athletes**

Payment & Service Agreement

Initial

Programs are debited monthly and run year round. After you're initial purchase you'll be debited the same amount each month the same date of your initial purchase. For example, if you register for a program May 10th, you will be debited every month on the 10th thereafter until you cancel.

Payments will be taken on a monthly basis until cancelled. To cancel, you must notify FOCUS in writing via email (support@focushpp.com) at least seven (7) days before the next billing cycle.

I fully understand programs are set up as monthly reoccurring payment plans. The credit card that I submit will be debited each month until I cancel membership. I am free to cancel anytime with no questions asked.

An active credit card is needed on file even if paying by cash. This assures outstanding payment for services provided can be collected if athlete cannot be contacted. If payment isn't received for services within five (5) days of last service provided, the credit card on file will be charged.

All training sessions that I plan on attending will be schedule in advance. If I show for a session without scheduling in advance there is no guarantee I will be able to participate.

Rescheduling / cancellation of any session needs to be completed the day before your scheduled session to avoid charges for that session. The charges applied account for missed training opportunities for other athletes who could have taken your spot.

In order to achieve best results I understand communication must be maintained. If communication isn't maintained at least once every ten (10) days my spot will be opened to another athlete.

Upon signing this agreement, I understand I will be making scheduled payments to FOCUS Human Performance and agree to terms for program participation. I realize attitude, expectations, communication and commitment are the founding principles for program success. I agree to pay amount based on program. location, package and schedule I select.
